

BUSINESS SYSTEMS

IBM

C/WP supplies IBM Personal Computer systems to multinationals, Government departments and educational establishments on competitive terms. Telephone or write for details of prices and on-site maintenance.

CORTEX

"The Cortex is a superb modern piece of hardware...Few compare with the Cortex on price/performance", PCN Pro-test October 1983. "It is able to plot graphs and charts much faster than conventional 8-bit machines", PCW November 1983.

APPLE

C/WP has specialised in Apple Computers for nearly four years and can offer low prices to Apple users due to in-house manufacturing of Apple peripherals.

APRICOT

Competitively priced British-made 16-bit portable.

OSBORNE

New lower prices make the Osborne a superb bargain, together with the benefits of free Wordstar, Mailmerge, Supercalc and Microsoft Basic. C/WP offers engineering and software support and its own manufactured 80 column card as approved by Osborne.

EXACT ACCOUNTING

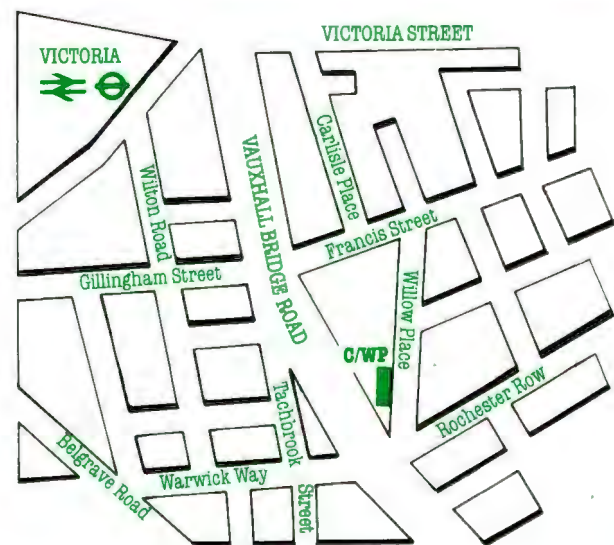

Fully integrated business accounting system for floppy or hard disk implementation on all the above machines. Sales, purchase and nominal ledgers, invoicing, stock control and payroll, all for £512 inc. VAT.
