Further protection equipment available from Bowthorpe EMP

Bowthorpe EMP offer a lifetime's experience in the design and manufacture of surge protection equipment.

Since 1946 we have been in continuous production of Surge Arresters for overvoltage protection of equipment connected to distribution/transmission systems and are now recognised as one of the world's leading suppliers.

Our surge protection products are now exported to more than 80 countries representing approximately 85% of our total business. The benefits of this wide experience in overvoltage protection are also available to users of sensitive electronic equipment.
