AMX ART

AMX MOUSE

Catch an incredible AMX MOUSE! The advanced opto-mechanical device that brings to your BBC micro facilities once only available on more expensive computers. Now you can use **ICONS, WINDOWS AND POINTERS** in your own programs.

AMX PACKAGE

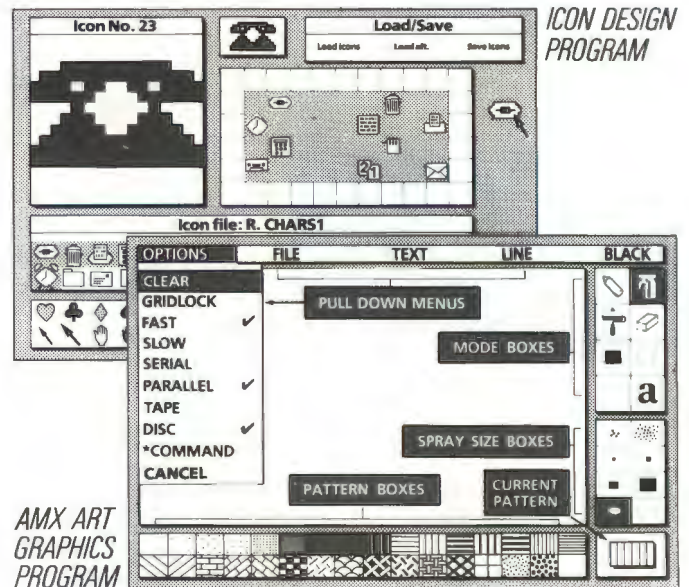

Plug the MOUSE into the user port, and the EPROM into your board. The latter contains fast machine code routines for creating on-screen windows, icons and pointers. And means that the MOUSE buttons can be programmed for use with commercial software such as Wordwise and View. There are two manuals included, explaining how to operate the MOUSE and the ROM routines, which are available in both basic and machine code programs.

Included in the package are two superb programs:

AMX ART has to be seen to be believed! It's a computer-aided drawing program that's just as good for serious applications—such as the preparation of detailed architectural and engineering drawings or teachers' worksheets—as it is for having lots of family fun! And if you're artistically inclined, you'll be astonished at the quality of work you can produce and save. It makes full use of on-screen menus, pull-down menus and icons: the ideal, easy way for novices to learn and gain in confidence.

ICON DESIGNER is an invaluable program for creating and storing icons for use in your OWN programs.

The AMX MOUSE may be used with any BBC Model B fitted with the Operating System 1.2; and it's compatible with the 6502 second processor and disc or tape filing systems.

New! AMX DESK

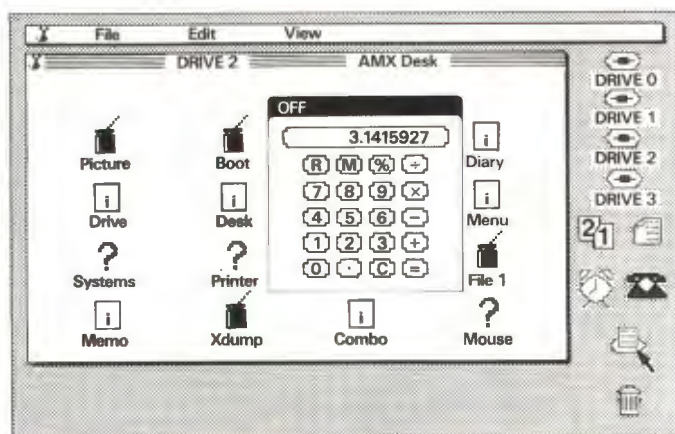

DISC ONLY
£24.95 INC
VAT

A terrific new program designed for the AMX MOUSE. If you want to get properly organised—at home or at work—DESK is for you!

The main screen contains a desktop with header offering **SYSTEM, FILE** and **EDIT** menus—plus an additional menu for extra features; and there's a constant time display.

Down the right-hand side are icons displaying Disc Drives, Memo Pad, Telephone Book, Diary, Alarm Clock, Printer and Trash Can. Simply by using your MOUSE you can select any service you require.

- **MEMO PAD**—Up to three pages of text may be stored. With printing at the touch of a button.
- **TELEPHONE/ADDRESS BOOK**—Up to 200 or 400 entries (depending on disc drive capacity) with handy scrolling search.
- **DIARY**—Displays a calendar for three months, centred on the current month, with scrolling backwards and forwards. Dates with entries are highlighted; select a date and view the entries.
- **ALARM**—Sounds at the time you've pre-set, whichever DESK service you're using.
- **CALCULATOR**—A full-function calculator can be brought on-screen at any time, and results can be stored for use in Memo Pad, etc.

See us on **Mouse Links** on Viewfax tube link on Prestel: **Page No. *258216#**

Any window showing Telephone/Address Book, Diary or Memo Pad may be dumped to the printer by simply selecting the printer icon. An interface program for Wordwise+ and View means pictures created with AMX ART can be merged with text upon printing out.

New! AMX UTILITIES

DISC ONLY
£14.95 INC
VAT

Another remarkable new program for the AMX MOUSE. Now you can enjoy many drawing features you'd never expect to find at this price!

The Zoom facility means easy and accurate amendments to your drawings: one dot becomes a character. You can copy, rotate and reflect; enhance circles; draw ellipses and arcs; and print icons, too. Borders can be added, and pictures can be stripped and centred ready for saving and printing. There's colour sketch, too...Great for budding artists!

All disc software is available on 40 or 80 Track and 3" disc. Please state which you require when ordering.

These exciting AMX products are available from top computer dealers.
