

**DON'T MISS THIS FABULOUS LIMITED OFFER  
THE AMAZING**

# TELEBOX

**CONVERTS ANY MONITOR WITH A COMPOSITE OR RGB TYPE  
INPUT INTO A QUALITY COLOUR\* TELEVISION SET**

The **TELEBOX** simply plugs into the composite or RGB input of any monitor such as **MICROVITEC, SANYO, PHILIPS, TATUNG** etc, etc. Giving your currently dedicated computer monitor a dual function and a real benefit to **ALL** of the family!!! And, as you can imagine, the high definition CRT tubes used in most computer-type monitors, when coupled with the **TELEBOX** offer far superior pictures when compared with a domestic television receiver. Don't worry if your monitor doesn't have a sound input – the **TELEBOX** has an integral speaker and amplifier for stand-alone use, and a quality sound output for connecting to headphones or your HI-FI system.

**BRIEF SPECIFICATION:**

- ★ Composite and RGB outputs
- ★ 7 channel UHF tuner
- ★ Integral 4 watt amplifier
- ★ Mains powered
- ★ 1 year parts guarantee
- ★ Latest technology
- ★ Auto AGC circuit
- ★ SAW filter for Teletext use
- ★ Remote mains output
- ★ HI-FI sound output
