

# RGB... PAL...

# ...and AUDIO

## RGB/PAL COMPOSITE VIDEO MONITOR

Continuing Microvitec's revolutionary advance in high-performance colour displays, the latest addition to the comprehensive range is the RGB / Composite Video (PAL Encoded) monitor with audio. (Optional on 14").

Incorporating all of the usual Microvitec features:-

**RELIABILITY**  
**QUALITY**  
**HIGH PERFORMANCE.**

The RGB/PAL model is specifically designed for use with a Video Cassette Recorder/Video Camera, combining exceptional true-to-life picture reproduction, with crisp well-defined display of computer-generated text and high-resolution graphics.

## APPLICATION AND VERSATILITY

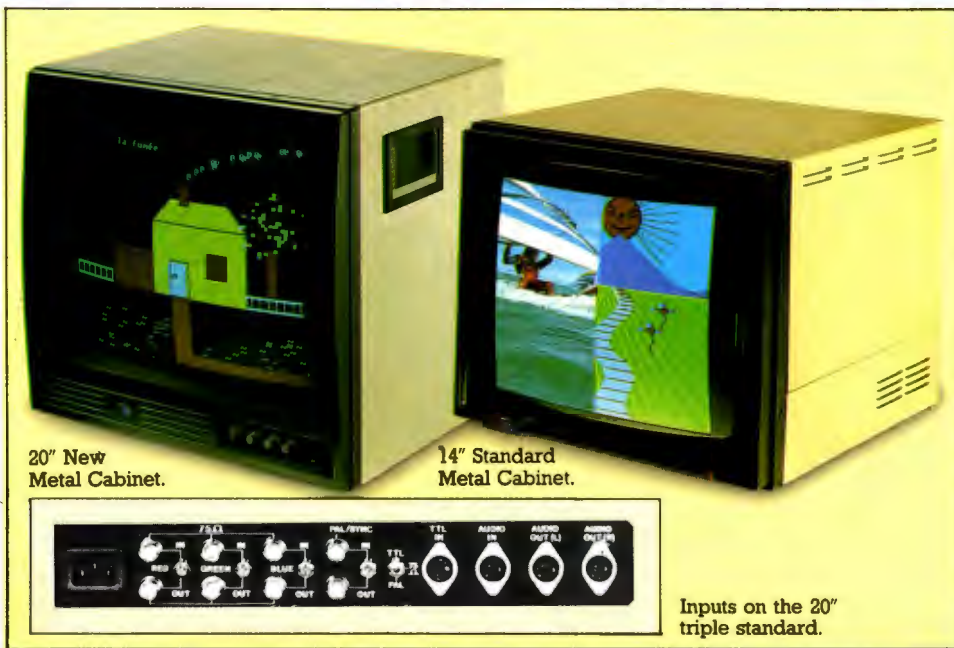

Unlike some 'converted televisions' the RGB/PAL monitor, as well as being able to display video recordings, is a completely DEDICATED microcomputer monitor.

The introduction of the RGB/PAL display makes it one of the most advanced and versatile micro-computer colour monitors on the market today.

The 20" triple standard model (TTL, ANALOGUE / PAL with AUDIO) being compatible with:-

TEXAS INSTRUMENTS TI 99/4A  
COMMODORE 64/Vic 20  
APPLE II/IIe/III  
TANDY COLOUR COMPUTER  
DRAGON 32  
ACORN ATOM  
BBC (A and B)  
ACORN ELECTRON  
RML 380Z/480Z  
TANDATA TE 1100  
LYNX - and many more

Therefore, even if your microcomputer requirements change, there now exists a 'universal' monitor to match; thus making it a long-term investment, even in today's rapidly changing technological climate.

20" New Metal Cabinet.

14" Standard Metal Cabinet.

Inputs on the 20" triple standard.
