# BEEBUGSOFT ROMS

## SLEUTH £29.00

The ultimate debugging tool for the Basic Programmer. Single Step through your program instruction-by-instruction with dual screens, breakpoints conditional breakpoints, advanced trace, variable display/update and much more.

## SPELLCHECK II £31.00

The established partner for your View/Wordwise wordprocessor. Spellcheck II will rapidly check the spelling of your text created on View/Wordwise and will draw your attention to any unknown or incorrectly spelt words. Spellcheck is fast, checking up to 950 words/minute in our tests with an Acorn 1.2 DFS and an incredible 1450 words/minute with a 6502 second processor.

## TOOLKIT £27.00

The original programming aid for Basic Programmers. A host of utilities to speed up program development, including a screen editor, automatic error trapping, string search/replace, program packer, renumber, merge, program move, recovery ... etc. etc.

## HELP £25.00

The information Rom. How many times have you been stuck for a piece of information in the middle of writing a Basic program? Continually looking information up in the User Guide can be a time consuming matter. The new Help Rom overcomes this, just type \* H topic for all the information that you need to know about a particular subject. Contains 13000 bytes of information on Basic, Himem, Memory, VDU commands, FX calls etc.

# DEMONSTRATIONS

# STAND 95

There will be regular public demonstrations of the most popular BEEBUGSOFT products on stand 95.

For technical advice, and one-to-one demonstrations or further information about any of the BEEBUGSOFT products just see anyone on our stand.
