**Disks in B U L K**

Do you ever wonder how much that expensive packaging costs, and all the advertising too!!! Well we can tell you ... it's quite a lot. All the main disk manufacturers sell disks in bulk. That means no labels, no boxes, no packaging, and no flashy warranty, and of course no identity. They all do it, its a bit like bucket shop airline tickets, same product but at a lower cost. We guarantee it's good value. Remember our no-nonsense warranty.

## Head Cleaners

from Perfect Data - Careware™

Don't be caught out, head cleaning is necessary!! Occasional head cleaning can help prevent build up of oxide and general dirt. Nobody would ever cover delicate electronic heads with a layer of dirt, but that's what happens when a drive is used under normal conditions. It can't be avoided, so keep a head cleaner handy.
