The only thing that seems to stand still on some colour monitors is the price. But at Opus we've now made our RGB High Resolution colour monitor even more affordable – it's down to just £199.95, and the picture quality is as rock steady as ever. What's more we deliver within 48-hours and give you an unrivalled warranty plan to guarantee your peace of mind for the next two years. And if that's not enough our price includes carriage, VAT and connection leads.

Our JVC monitor (580x470 pixels) has received ample praise from the computer press. Acorn User said:

"... gave steadier pictures than the Microvitec Cub, and the colours were rather better."

Personal Computer News added:

"There is no doubt that the JVC range of ECM colour monitors is excellent value for money... there is no loss in quality of picture after long periods..."

The unit has a 14" screen and is suitable for use with the BBC Micro, Electron, Sinclair QL, Lynx, Oric, Apple, IBM, Amstrad and RML 480Z and most other leading micros.
