ELECTRON INTERFACES

ELECTRON DISC INTERFACE

- * Unlike some other interfaces ... truly ACORN compatible
- * Fitted with 1770 DFS as standard @ ~~EPP~~
- * Plugs into Plus 1
- * Will accept any standard drive with PSU

USER PORT

- * Provides the same I/O as the BBC

1MHZ BUS

- * Allows the connection of various peripherals such as the ACP Advanced EPROM Programmer

TUBE

- * Adds the versatile interface for the 2nd Processor which gives 64K memory and dramatic speed increase

RS232 SERIAL

- * Lets the Electron open up to the outside world and allows extra I/O i.e. serial printers

OTHER PRODUCTS

- ** ELECTRON PLUS 3 SECOND DRIVES WITH PSU**
- ** ELECTRON PLUS 3 SECOND DRIVE ADAPTOR **
- ** 5" FLOPPY DISCS **
- ** 3.5" DISCS **
