BBC BASED BUSINESS STARTER PACK – £950 + VAT

**BBC MICRO MODEL B with DFS
SINGLE 100k DISK DRIVE
DOT MATRIX PRINTER
MONOCHROME MONITOR
COMPLETE WITH DESK
WORD PROCESSOR
DATABASE
SPREADSHEET
CABLES, DISKS and PAPER**

SEE CURRENT MAGAZINES FOR SPECIAL OFFERS

- **FULL SIDEWAYS ROM EXPANSION** to total of sixteen ROMS.
- **16K battery backed CMOS RAM option** - RAM is treated as ROM number 15 on read.
- **Software for SIDEWAYS ROMS** may be down loaded and run in RAM under the true SIDEWAYS environment before transfer to EPROM using ATPL 's EPROM programmer.
- **EXISTING sockets on BBC** are usable and all EPROM sockets are accessible without removing SIDEWISE.
- **PLUG - IN - AND GO construction.** Mounts neatly inside the BBC machine.
- **NO SOLDERING** required to fit SIDEWISE.
- **FULL BUFFERING** of address and data buses - prevents data bus loading problems associated with unbuffered boards.
- **PIN 1** of on board sockets are connected properly - no spurious crashes due to this known fault on BBC machine.

16K CMOS RAM OPTION - please ring for latest price as this is subject to fluctuation.

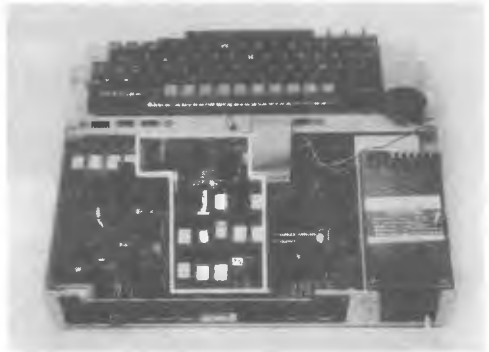

PRICE: £39.33 inc. VAT + £1 p+p

DESPATCH: within 24 hours from receipt of order.

SIDEWISE

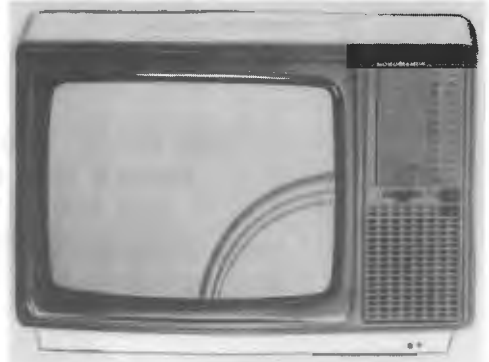

SIDEWISE FITTED

14" COLOUR PORTABLE TV/MONITOR from ELECTRONEQUIP

This TV/Monitor is not a modified television as many TV/Monitors are but a TV/Monitor designed to perform both functions.

Technical Specifications:—

Model: MNN1534/3534 (Remote Control) Chassis: Single-board F10 Chassis
Power Consumption: 64W Picture Tube: Self-converging 14" precision in-line colour tube.
Operation: 12 tuning buttons (with one selecting the monitor function), 1 slide control for volume, 3 rotary controls for colour, brightness and contrast. Loudspeaker: Forward-facing, 6W music power output. Connections: 2 earphone sockets. Peripheral socket for TTL RGB, composite video, and sound. Finish: Silver cabinet with black front panel.
Dimensions: W 48.7cm (19") H 33.5cm (13") D 39.1cm (15.4") Weight: 14.0Kg
PRICE: £199 (MNN 1534) inc. VAT. £247.25 (3534) + £4.90 p+p

Our smart modern premises contains a shop for the casual or serious buyer who knows what he/she wants and merely wishes to purchase it in comfortable surroundings. A showroom where we can demonstrate a range of industry standard operating systems from the BBC through IBM compatibles to the newest UNIX operating systems. We also have an operational network at Level 1, 2 or Torchnet. A workshop where we carry out on-site repairs so the customers' down time is considerably reduced. Come along and see us, and allow us to demonstrate some of our extensive range of equipment, give you a competitive quotation, or merely browse.

VOLTMACE DELTA 14B HANDSETS

DELTA 14B HANDSET and DELTA 14B/1 ADAPTOR BOX for the BBC MICRO

The DELTA 14B handsets are lightweight easy to hold units with a sensitive sprung return-to-centre joystick combined with a 14 button keypad. The stick was developed in a video game environment over a number of years to produce a tried and tested reliable unit. One handset will plug into the analogue 15 way 'D' socket on the rear of the micro and will run games written for joysticks. An adaptor box plugs between the handset and the micro and joins by cable to the user port and now you can use the full benefit of the keys and conversion programs. A second joystick can plug into the adaptor box. The second joystick socket also gives access to two A/D channels and some of the user port for external devices which may be required at the same time as a joystick.

MERLIN SCRIBE

Letters may be drafted, altered and amended before anything has been printed. Standard letters and paragraphs may be stored and used later to construct larger documents.

MERLIN DATABASE

This is an extremely powerful 'Card Index' system. Names and Addresses, details of customer accounts and stock control information are just a few of the possible uses for a database and with the facilities that the Merlin Database offers, it is easy to generate custom reports or produce address labels for mailshots. By combining both the word processor and the database, it is possible to generate mailshots using 'standard letters', so you could send each of your customers (held in the database system) a personalised letter.

PENMAN PLOTTER

Produce High Quality Drawings with this in-expensive three colour plotter.

Also Available:—

Penman Utilities, Microdraw, Multi-Plotter Driver,

* May also be used as a mouse *

RB2 - TRACKER BALL

Complete with demonstration software. The Tracker Ball allows the user a low cost introduction to C.A.D.

* Now Available * - 'Icon Master'.

An Icon driven Colour Graphics Package.

AMX - MOUSE

Complete with Superb Monochrome Icon-Art Software. Use as an alternative input device to the keyboard. **Also Available:** AMX Paintbox, AMX Desktop, AMX Utilities.

OEL -TELEMOD 11 MODEM

Access Prestel and other Viewdata services. This low cost Modem can give you access to a world of information databases.

* Also with User to User facility *

BITSTIK

A powerful colour graphics package, driven by a hi-resolution joy-stick. Can be used in conjunction with the Penman Plotter for C.A.D. applications.

(Requires 6502 Second Processor)

* Plotter driver software also available *
