DISC DRIVES

The supply of Cumana drives is no longer subject to delay and the CD800S 40/80T switchable drives fulfill most storage requirements. For single drive owners wishing to extend, the Cumana E series will plug into your existing drive and be automatically configured to drives 1 and 3. If you have large storage requirements the Acorn hard discs must be the answer.

Dumpmaster

PRINTER DUMPS

A clever piece of software which produces fast, machine code, tailor-made screen dumps for any of the different types of printers listed below. DUMPMASTER uses up to 8 shades and will accurately copy your screen in any of the graphics modes, and even the teletext mode.

Once created your tailor-made dump can be called as required or appended to your own Basic program. There is even a special 'Snapshot' facility which will produce screen dumps from a game or other program, at the press of a key. (As long as the program does not use the same work area.)

DISCMASTER

The Ideal Utility For Your Disc System.
11 Powerful Routines For The Disc User.

1. DISC EDITOR/STRING SEARCH

A string search routine combined with a full screen editor, simply overtype on the screen (in hex or ascii) to update the disc.

2. RECOVER

Recovers programs lost by accidental deletion or disc corruption.

3. MOVEDOWN

The command *RUN will load, move down and run your long programs automatically, if you add this routine to them.

4. DISC MENU

A colourful automatic menu to add to each of your discs, which will move down and RUN Basic programs, and *RUN machine code programs.

5. INDEXER

Creates an information index file for all of your discs, which may then be displayed, updated or printed to help you keep track of your programs.

6. COPIER

Transfer a whole cassette of programs onto disc automatically. (Will not copy protected cassettes).

7. LINK

A utility to automatically call and insert useful routines from your own library, into your development programs.

8. OVERLAY

Enables procedures or functions to be loaded from disc and overlaid into your program as it runs, allowing you to run programs much larger than available memory.

9. 40 to 80

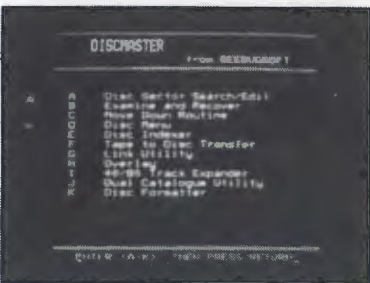

Insert your 40 track disc, 3 minutes later remove the disc which is now in 80 track format and still has all of your programs on it.

10. DUAL CATALOGUE

Enables 61 files to be saved per disc surface instead of just 31.

11. FORMAT

A speedy program to format or verify 40 and 80 track discs.
