

WARNING

The following facts
may shock you . . .

Lurking in your mains supply is the power to destroy or disrupt your expensive equipment

In the blink of an eye, your computer, VDU, Hi-Fi, TV, Video, etc can be damaged beyond repair

Invaluable data can be wiped from the memory of your computer

All it takes is a voltage spike

A spike can be caused by simply switching on a fluorescent light, a vacuum cleaner, a fridge freezer, a hair dryer, or even a neighbour starting up a drill

For effective protection the spike must be stopped BEFORE it reaches your equipment.

A Bowthorpe Spike Protector Plug operates instantly, resets automatically, and wires just like a normal plug, so . . .

DON'T WAIT FOR IT TO HAPPEN – PLUG IN A PROTECTOR

The essential
plug-in protector
for domestic
and professional
appliances
