# **TYNESOFT**

## **COMPUTER SOFTWARE**

Dear Customer,

Tynesoft's second edition of it's BBC/Electron Catalogue contains for the first time software for the BBC Master Compact. Tynesoft's new releases will be over the full range of Acorn machines and we have an easy to understand product list which is included in each description. We have also included screen shots where possible to help you in your choice of software. All Tynesoft's mail order prices are less than the R.R.P. in retailers and remember to use our Freepost facility to save you any postage charges.

I hope you find our products of interest to you and we look forward to processing your order in our usual efficient way.

Yours sincerely,

*C Courtney*

# WHAT THE PRESS SAY ABOUT TYNESOFT

**ELECTRON USER – OCTOBER**

**“COMMONWEALTH GAMES IS A FINE  
EXAMPLE OF AN ATHLETICS PROGRAM.  
GRAPHICS ON A GRAND SCALE**

**A & B AWARDED TYNESOFT WITH  
ITS BBC SPECIAL  
“SOFTWARE HOUSE AWARD” FOR 1986**

**A & B SAID:—**

**MOUSE TRAP** – A hungry mouse will do anything to get some food, even leap from platform to platform and dodge deadly enemies. Your task is to help a poor starving mouse get as much food as possible. The food is scattered over each screen and fast reactions are needed to reach each piece. The graphics are very smooth and well animated with good colourful detail. The sound is used effectively and rounds off well an addictive and fun to play game.

**A & B SAID:—**

**JET SET WILLY** – After a very long wait miner Willy finally made his debut on the Elk. After throwing a huge party in his mansion he must clear up the bottles, glasses etc. which are left all over his sixty room house. This is a classic platform game with ultra smooth highly animated graphics. Clever programming gives three colours in a two colour mode and a highly playable game. Buy this game **NOW!**

**A & B SAID:—**

**WINTER OLYMPICS** – If you enjoy keyboard bashing or joystick wiggling then you are in for a treat as this game is very addictive. There are six events which include speed skating, ski jumping, ski slalom, downhill ski-ing, cresta run and curling. Most events are fun to play again and again. My favourites were speed skating and cresta run and overall the game is a winner with large colourful graphics and good use of sound.

# COMMONWEALTH GAMES

This superb sports simulation explores new territory in programming with a new sprite compression technique used for the first time to give you the very best in graphics display.

Compete against the computer and the clock in 8 challenging sports events in search of the coveted world record.

- Weight Lifting • Long Jump • Rowing • Swimming
- Cycling • Hammer • Running • Steeple Chase

# JET SET WILLY II

Whilst recovering in hospital from a severe fall down some stairs, Willy called in the builders. He thought it odd that they had green skin, but needing the work done in a hurry he asked them to remove the offending edges from his stairs. Trouble was, they did far more work than asked, adding several rooms to his mansion and then refusing to charge him!! Maria is demanding that Willy clear up the mess and he hasn't even found all the rooms yet. Who were these strange people? Why did they need to add a rocket room in Willy's already substantial house?

Much patience and stamina is required to explore the extended house and NASA's "Guide to Simple Space Travel" is recommended reading for those foolhardy enough to help Willy clear up all the mess. Be careful in the sewers and watch out for the bell ringer in the Belfry! Good luck!!

This game is for all the people who wished that Jet Set Willy was bigger and better. Some of the rooms may be familiar and those who played the original Jet Set Willy will have a head start with this very extended over 100 room game.

# STARTER PACK ONE

**Bozo the Brave** – to direct Bozo through the three lands of havoc collecting in each a piece of the crown of the ultimate darkness.

**Trek II** – as commander of a federation star ship, your mission is to travel through the six galaxies in search of a long lost starship captain.

**Space Caverns** – fly your space craft through numerous caverns to reach your home base. Points are awarded the longer the player survives. Every time a round is completed the gravity is increased.

**Cylon Invasion** – destroy the oncoming cylon fleet before their energy bombs reach the earth. Each energy bomb which hits the earth will reduce the earth's shields until they glow red and eventually collapse causing the earth's destruction. Each wave gets progressively faster up to wave 10.

BBC/Electron – Cassette only – £8.95

# VINDALOO

Raj is the owner of an Indian take-away who likes to partake of his own Vindaloo curries. Unfortunately for him, he's eaten just one too many, and must find the W.C. which is at the bottom of his cellar (very quickly).

Raj's cellar is so large that it is made up of many rooms, you will have to guide him through these rooms to get to his ultimate goal!

### **MATHEMATICS** **'O' LEVEL**

### **PHYSICS** **'A' LEVEL**

# JUNIOR MATHS

BBC/ELECTRON  
CASSETTE ONLY  
JUNIOR MATHS 1 – £3.95  
JUNIOR MATHS 2 – £3.95

JUNIOR MATHS (PART 1)

JUNIOR MATHS PART 2

## PARTS 1 & 2

Part 1 covers addition and subtraction.  
Part 2 – multiplication and division.  
This package is excellently presented  
being visually very appealing to the young  
learner. It features large multi-coloured  
numerals, sound effects and rewards for  
correct answers.  
Also incorporates an analysis screen for  
assessment by parent/teacher.

# SUPERFILE ELECTRON

"Superfile Electron", is a business/domestic household/  
"Hobbyist"/Collection Database filing system for your computer.

"Superfile Electron" includes many of the features of similar  
higher priced packages:

- A maximum of 15 fields for each record.
- An alphabetical and numerical sort within records.
- A special "walk" facility to allow you to view all records in the file.
- Global search will retrieve information in any field,  
alphabetically and numerically.
- A print-out of your file can be obtained via a printer.

"Superfile Electron" comes complete with a comprehensive  
manual with examples for each of handling information in all its  
many aspects.

SPECIAL OFFER PRICE £2.99 – CASSETTE ONLY

**3D Maze** – Pit your wits against the computer's logic in this highly realistic graphical game. The computer sets up the logical maze (you choose the size), and then it shows the view of the maze in 3D, each step you take as you battle against the clock to escape!

**Peg Leg** – Ahoy there me hearties! Travel round the seven seas collecting pieces of eight and cannon balls for your pirate galleon. This highly colourful machine code arcade game will even have your parrot squawking for a turn.

**Hyperdrive** – A new, very addictive machine code arcade style game. Guide your laser tanks around the network of passages, destroying the drone aliens – but beware, evil Otto lies in wait!

**Super Hangman** – The special feature of this version is the hi-resolution animated man. Watch the expression on his face change as the noose tightens around his neck. Marvel at the detail of his clothing – but don't take too long, he grows very impatient! Contains many categories from educational to just plain fun!

**Gunsmoke** – A realistic 3D simulation of a heated wild west street gun battle in which you will have to defend yourself against up to 16 enemy sharp shooters.

**Super Pool** – A superb pool game with a difference. Features include time restricted shots, variable cue strength, superb real time graphics.

## BBC ONLY

**Beach-Head** – A challenging naval battle which allows you to land your troops. If you succeed the most difficult challenge still remains capturing the enemy fortress of Kuhn-Lin.

## BBC/ELECTRON

**Rig Attack** – Is an action-packed game with superb graphics and scrolling screens demanding skill and quick reflexes to guide your helicopter from rig to rig without coming under attack from enemy submarines.

The submarine is equipped with the latest missiles. Your copter carries short range bombs that need to be dropped at a low altitude to reach the darting submarine in the waters below.

**Alphatron** – As head of base security your task is to intercept enemy missiles before they reach the trillithium refinery. Your Targa-2 scout craft is equipped with guidance, fuel plus radar computers to aid you in your seemingly endless task.

**Santa's Delivery** – An ideal Christmas tape for the children. It's Christmas Eve and Santa once again performs his Yuletide task. Life however isn't that easy, icicles, snowballs and roaming snowmen make life very hazardous on the slippery rooftops.

# ELECTRON ONLY

## SPECIAL OFFER PRICE £2.99 – CASSETTE ONLY

**Blitzkrieg** – A captivating 3-D tank warfare simulation with revolving exploding tanks, 3-D shell fire, detailed scrolling landscape, high score ranking system and realistic sound.

**U.K. – P.M.** – If you have ever said “That Prime Minister – just give me the chance to run the country and I’ll show you . . .” Then here’s your chance. A superb program that will keep you involved for hours – don’t just argue about politics, see what you can do about it!

**Stratobomber** – A new, highly colourful machine code arcade style game. Can you keep the enemy fleet at bay long enough to destroy the nuclear reactor of the rogue star ship before it destroys your home planet? Superb graphics.

**Invaders** – A superb full feature adaptation of the arcade “Space Invaders” game in machine code and hi-resolution colour graphics. Play normal game or choose from the many options including missile, bomb and invader speeds, invisible/visible invaders and shields/no shields. Quite simply the best.

**Caterpillar** – Superb rendition of the popular arcade game. Features toadstools, spiders, fleas, scorpions, left/right and up/down base movement. Very exciting game.

**Vortex** – There was no escape he had to enter the vortex and bet on his skills! He grabbed the manual controls and with determination fired both upper deck guns.

**Wet Zone** – E-Lanes are the most despicable excuse of a life form in the universe. They are nearing their goal of invading the mother planet – Earth. You are the pilot of the last remaining space interceptor. With luck and skill you must destroy wave after wave of the attacking alien hordes!!

**3-D Bomb Alley** – A realistic 3-D simulation of an explosive air-sea battle, in which you must defend a fleet of ships from attacking enemy aircraft.

**Bouncing Bombs** – Battle through the depths of the intergalactic vortex to reach successive stellar warp zones which transport you even deeper into the vortex. Avoid the deadly gamma rays and lamda particles to survive your epic journey to the far side of the vortex.

# BOOKS

**GAMES FOR YOUR ACORN ELECTRON** by **Simon Birrell** – More than 20 challenging programs, each one especially written for the series and guaranteed to provide hours of entertainment.

**Games for your Acorn Electron** will improve your programming skills as you follow the instructions to put each of the programs into your machine, and comes complete with a brief dictionary of computer terms and some hints on how to extend the programs in the book.

R.R.P. £2.95 **Tynesoft Price £1.95**

**DISCOVER YOUR ELECTRON** by **Philip Williams** – This book is designed for Electron users who want to begin writing their own programs. It assumes a working knowledge of the keyboard and the machine's basic functions.

**Discover your Electron** makes full use of the machine's sound and graphic capabilities and prepares the user for advanced programming with a wealth of hints and tips.

R.R.P. £2.95 **Tynesoft Price £1.95**

**VERY BASIC BASIC – The first 15 hours on your Electron** by **Derek Ellershaw and Peter Schofield** – This book is designed to guide the new Electron user through the first few weeks of programming – from the moment the machine is plugged in to a proficiency in basic programming.

**Very Basic Basic** is essential reading for any first-time Electron user, it manages to avoid technical jargon and is also great fun to use. All example programs are presented in quiz, game or self-questionnaire form, fully illustrated for easy reference.

R.R.P. £2.95 **Tynesoft Price £1.95**

**INSTANT ARCADE GAMES FOR THE ELECTRON** by **Jean Frost** – With little or no knowledge of BASIC, you can still take a suite of 'skeleton' programs and create your own arsenal of dynamic and totally unique arcade games.

**Instant Arcade Games** offers an invaluable library of imaginative subroutines and user-defined graphics to enhance the efficiency and visual impact of their games programs.

R.R.P. £3.95 **Tynesoft Price £2.95**

**DYNAMIC GAMES FOR YOUR ELECTRON** by **Neal Cavalier-Smith** – An exciting collection of dynamic games for your Electron. With 30 great programs just waiting to be typed in and run, this book will give you hours of fun in the weeks and months ahead.

R.R.P. £4.95 **Tynesoft Price £3.50**

**THE WORKING ELECTRON – A library of practical programs** by **John Scriven** – If you own an Electron computer and are looking to put it to more serious use, then this is the book for you.

**The Working Electron** is based on a collection of solid, sophisticated programs in areas such as data storage, finance, graphics, household management and education. The programs have been designed to make the most of the Electron's special features.

R.R.P. £5.95 **Tynesoft Price £3.95**
