Software from WeServe

View Printer Drivers

The View Printer Drivers by WeServe offer additional facilities not available with the standard Acorn printer or printer driver generator.

Functions available are:

Underline, Emphasize, Pica/Elite, Supersubscript, Subscript, Condensed, Enlarge, Double, Italics, Proportional Space, Reset, Lines per inch, Form feed, Skip-over perforations, Paper-end detector, NLQ on/off, Backspace.

Included in the package is a IBOOT file which boots up View and programmes the red function keys (shift & control required) to contain all the highlight codes.

Drivers are available for most printers eg: Epson RX, LX, FX, Kaga/Taxan KP810 & KP910, Canon PW1080A & PW1156A, Citizen 120D, Juki 5510. Please state which printer you require the driver for when ordering.

Suitable for the Master and BBC Micros.
Supplied on a dual format 40/80 track disc with manual.

£9.95 inc VAT

Function Key Strip Designer/Printer

The Function Key Strip Designer/Printer enables you to design your own customised key strips or make spare copies of your View or Wordwise strips. Several key strips can be combined to make one strip eg, Wordwise Plus and Inter-Sheet could be put on the same strip. Included on the disc are several example strips including View, ViewSheet, Interword, InterSheet, etc.

Features:

Up to 4 entries per key, optionally centred
Simple text entry/editing in upper/lower case
Prints six key-strips onto an A4 sheet
Overall centred, bold and italic print options
Printer graphics to give professional appearance
Saves and reloads designs as files
Epson compatible

Suitable for the Master and BBC Micros.
Supplied on a dual format 40/80 track disc with manual.

£9.95 inc VAT

Recall & Printer Buffer Utility

A sideways ram utility which remembers the last 200 commands typed and allows the user to recall them on the screen and either re-execute them or to edit them. Commands can be recalled to find where a mistake has been made.

The Printer Buffer provides an 8k printer buffer when the recall function is active and a 12k buffer when not.

While the Recall or Buffer utility is active the standard 32 byte keyboard buffer is extended to 256 byte. Allowing more characters to be typed ahead.

Suitable for the Master and BBC Micros with 16k sideways ram.
Supplied on a dual format 40/80 track disc with manual.

£14.95 inc VAT

Printer Controller Rom

This rom makes your printer easier to use, with simple commands such as *PR ENLARGE ON. You can either control your printer using star * commands (as above), or via a menu.

Features:

Screen Dump: Modes 0 to 6
Half height or normal height
Six width settings
Multi-shade colour representation
High speed dumping (up to 10 times faster)
Reverse screen dumping

Basic line operation

Command line operation

Professional menu operation

Commands can be used from within Wordwise

Suitable for the Master and BBC Micros.

Supplied on ROM with comprehensive manual.

£14.95 inc VAT

Label Printer

A very user-friendly, menu-driven program to produce multiple copies of the same label on continuous stationery. Ideal for mail lists etc.

Features:

1, 2 or 3 labels in width
Saves and reloads labels from disc
Maximum of 28 labels per disc
Simple operation.

Suitable for the Master and BBC Micros.

Supplied on a dual format 40/80 track disc with manual.

£9.95 inc VAT
