COMPUTER LEADS

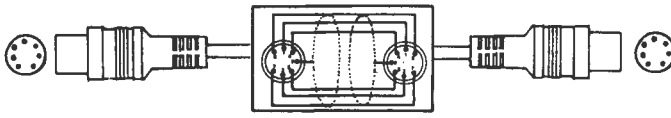

All cables screened. Connectors colour coded where necessary.

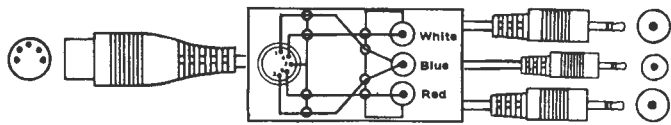

T177 **7X3C**
 7-pin DIN plug to two 3.5mm and one 2.5mm jack plugs. Colour grey.
 Length:..... 1.2m

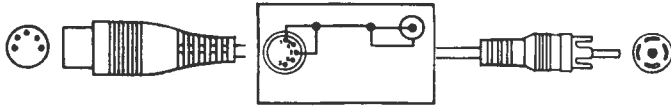

T178 **7X2C**
 7-pin DIN plug to 3-pin DIN plug and 2.5mm jack plug. Colour grey.
 Length:..... 1.2m

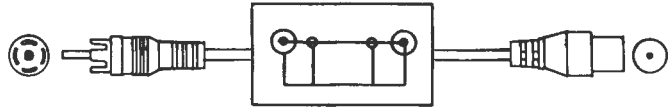

T179 **7X1C**
 7-pin DIN plug to 7-pin DIN plug. Colour grey.
 Length:..... 1.2m

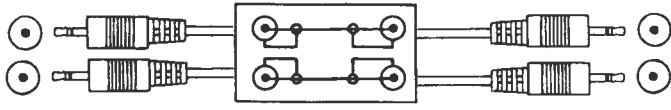

T180 **5X3C**
 5-pin DIN plug to two 3.5mm and one 2.5mm jack plugs. Colour grey.
 Length:..... 1m

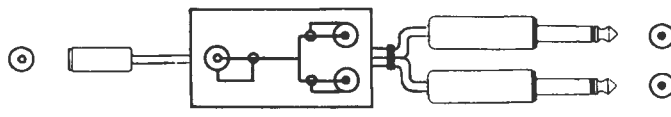

NEW
T180A **5X1R**
 5-pin DIN plug to phono plug.
 Length:..... 3m

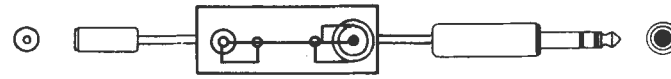

T181 **1X1C**
 Phono plug to co-axial TV aerial plug. Colour grey.
 Length:..... 1.2m

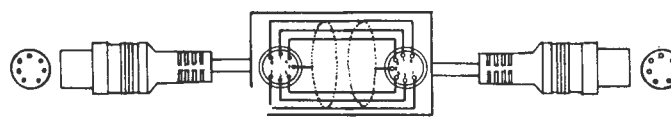

T182 **2X2C**
 Two 3.5mm jack plugs to two 3.5mm jack plugs. Colour grey.
 Length:..... 1.2m

T183 **1X26C**
 One 3.5mm mono jack socket to two 6.35mm mono jack plugs. For recording programmes onto high quality stereo cassette recorders. Colour grey.
 Length:..... 2m

T184 **1X16C**
 One 3.5mm mono jack socket to one 6.3mm stereo jack plug. For loading programmes from high quality stereo audio systems. Colour grey.
 Length:..... 2m

T185 **7X7C**
 7-pin DIN plug to 7-pin DIN socket. All contacts connected. Extension lead. Colour grey.
 Length:..... 2m

COMPUTER LEADS

SCREENED CONNECTION LEADS

Made from highest quality flat black cable, each core individually screened.
Connectors are all moulded-on to give a modern styled appearance.

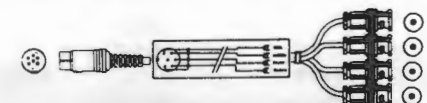

T185A **RR55**
5-pin 180° DIN plug to 5-pin 240° DIN plug. For connection between computer and cassette player.
Length:..... 1.2m

T185B **RRGB5D**
6-pin DIN plug to 5-pin 180° DIN plug. For connection between ORIC, DRAGON 32, etc and RGB colour monitor.
Length:..... 1.2m

T185C **RRGBX2**
6-pin DIN plug to 6-pin DIN plug. Standard RGB connector. For BBC, Commodore, Apple, Dragon 64, etc.
Length:..... 1.2m

T185D **RRGBB**
6-pin DIN plug to 4 x BNC plugs. RGB connector - Computer to monitor.
Length:..... 1.2m

T185E **RRGBP**
6-pin DIN plug to 4 x phono plugs. RGB connector - Computer to monitor.
Length:..... 1.2m

T185F **RR4D4D**
4-pin DIN plug to 4-pin DIN plug. Tandy-type printer lead, etc.
Length:..... 1.2m

T185G **RRS423**
5-pin 360° (Domino) plug to 5-pin 360° DIN (Domino) plug. Mirror image. Standard RS423 communication lead.
Length:..... 1.2m

T185H **4B4B**
4 x BNC plugs to 4 x BNC plugs professional RGB hook-up. Colour black.
Length:..... 1.2m

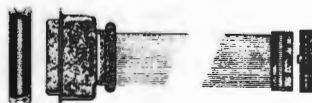

T107 **BBC12**
BNC plug to BNC plug.
Length:..... 1.2m

T109 **BPPC12**
BNC plug to Phono (RCA) plug.
Length:..... 1.2m

T111 **PPPCV12**
Phono (RCA) plug to Phono (RCA) plug.
Length:..... 1.2m

T191A **RRBBC**
26-pin IDC connector to 36-pin plug. For connection between BBC computer and printer.
Length:..... 2 metres

Co-axial plug to co-axial plug.

AERIAL ACCESSORIES

T.V. SWITCH

T123A EUAB37

Pushbutton selector switch to give three inputs to one TV. Blue body with aluminium faceplate. Co-axial socket inputs, co-axial plug output. Automatic substitution of 75Ω load when channel not in use. Screw fixing.

Dims:- 90 x 47 x 39mm

T124 T.V. SWITCH EUSW76

Two input, 75Ω, high isolation selector switch for changing TV input signal. Can be used with TV aerial, VCR, micro-computer, TV game, etc. Zinc diecast inner housing with moulded outer case. Automatic substitution of 75Ω load resistor when input channel not in use. Input via co-axial sockets. Output via 100cm flying lead. Fixing by screws or adhesive pads.

Band width:- d.c. to 900MHz
 Isolation:- 80dB min.
 Impedance:- 75Ω
 Dims:- 80 x 77 x 27mm

T.V. SWITCH

T125 EUSW78

As above but output via co-axial socket.

T.V. SWITCH UNIT

T126 EUAB59

Multi-channel selector system for TV/video signals, housed in attractive wooden cabinet. Pushbutton switch selection of four inputs to three outputs. Connection by Co-axial sockets.

Inputs:- ... VCR; Antenna; Cable TV; TV game; Computer

Outputs:- Main TV; remote TV; VCR
 Isolation:- 80dB
 Insertion loss:- 3.5 - 10dB
 Dims:- 247 x 140 x 80mm

Prices (inc post& VAT)

	F361	1801A	Aerial splitter, giving two standard co-axial outlets from one input. Incorporates ferrite cores for lower loss.
	F361A	3693	Switched changeover adaptor. Incorporates miniature slide switch. Input: co-axial. Output: co-axial.

COMPUTER CASSETTE TAPES

High quality low noise cassette tapes. Short play leaderless construction for use with computer cassette systems. Each tape in individual plastic library case with index card.

ref.	cat.	playing time
T151	C10	10 minutes
T152	C15	15 minutes
T153	C20	20 minutes

T152A

Pack of five, high quality, low noise, C15 15 minute cassette tapes in clear plastic library case. Leaderless construction for use with computer systems.

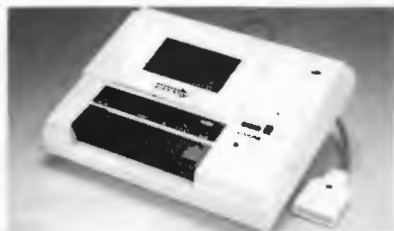

C15B5

Top quality modern styled computer compatible cassette tapes. Transparent plastic bodies with twin METAL SPOOLS. Packed in library case.

T153A	RC10	10 minutes
T153B	RC15	15 minutes
T153C	RC20	20 minutes

DATA RECORDERS

DATA RECORDER

T150A

PM4401C

High quality computer data recorder suitable for use with VIC-20 and COMMODORE 64 computers. Preset record and playback levels to be compatible with computer. Robust cream ABS body with brown 'piano' control keys. Tape counter. Auto stop.

Power:-..... Powered from computer
Lead length:-..... 1.35m
Dims:-..... 197 x 158 x 53mm

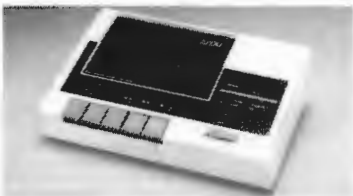

DATA RECORDER

T150B

C682A

High quality battery/DC operated data recorder suitable for use with most home computers. Internal switchable piezo buzzer for monitoring input/output. Slider level control. Auto stop. Tape counter. Connections via miniature jack plugs or by 5-pin DIN plug.

Input impedance:-..... 2k Ω
Output:-..... 3.5V p/p square wave
Output impedance:-..... 68 Ω
Tape speed:-..... 4.75cm/sec
Power:-..... 4 x 'AA' batteries or external 6Vd.c. 200mA supply
Dims:-..... 206 x 132 x 50mm

DATA RECORDER

T150C

C683A

High quality mains/battery operated data recorder suitable for use with most home computers. Internal switchable piezo buzzer for monitoring input/output. Rotary level control. Auto stop. Tape counter. Connections via miniature jack plugs or by 5-pin DIN plug.

Input impedance:-..... 2k Ω
Output:-..... 3.0V p/p square wave
Output impedance:-..... 100 Ω
Tape speed:-..... 4.75cm/sec
Power:-..... 240Va.c. 50Hz or 4 x 'AA' batteries
Dims:-..... 206 x 132 x 50mm

DATA RECORDER

T150D

PCM16

High quality computer data recorder suitable for use with VIC-20 or COMMODORE 64 computers. Plugs directly into computer and takes its power from the same connector. Record and play-back levels are preset to be compatible with computer input and output. Two-tone brown and fawn ABS body with "piano" control keys.

Power:-..... Powered from computer
Lead length:-..... 1.3m
Dims:-..... 195 x 158 x 52mm

FLOPPY DISC HEAD CLEANERS

DRY TYPE CLEANER

T154

5DT11

High quality DRY TYPE floppy disc driver head cleaner. Comprises two cleaning discs made from lint-free fibres. Simply insert cleaner and run for 20 seconds. Each cleaner suitable for 15 operations. Suitable for use with single or double sided disc drives.

Dims:-..... 5.125 inch ANSI

WET TYPE CLEANER

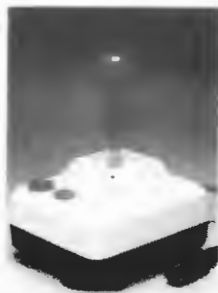

T155

5WT01

Professional Quality WET TYPE floppy disc head cleaner. Six discs made from non-woven polyester (random fibre) with one jacket. Complete with aerosol spray sufficient for fifteen operations per cleaning disc. Suitable for single or double sided disc drives.

Disc size:-..... 5.125 inch ANSI

JOYSTICKS AND TRACKBALLS

DRAGON

T159A DR2B

Rugged easy action analogue joystick with centre return springs. Internal variable pots give direct analogue output. Large, solid body with sucker feet. Two 'fire' buttons. Metal shaft with large round handle.

Dims:- 115 x 98 x 150mm
Handle length:- 100mm

BBC

T159C VG318BBC

Purpose built joystick compatible with the analogue input of the BBC. Internal resistors give the required voltage levels. Strong mechanism with light action. Two 'fire' buttons. Rubber suction feet.

Dims:- 120 x 110 x 155mm
Handle length:- 130mm

DRAGON

T159D VG318DRA

As above but fitted with 5-pin 240° DIN plug for use with Dragon and Tandy Colour computers.

BBC

T159F TUK282

Purpose built digital joystick compatible with the analogue input of the BBC. Internal resistors give the required voltage levels. Strong mechanism with light action. Thumb and pressure bar 'fire' buttons. Rubber suction feet.

Dims:- 115 x 79 x 152mm
Handle length:- 122mm

ATARI

T165 JS2B

Top quality construction joystick with modern designed body and handle shaped to fit the hand. Four large suction feet attach firmly to any flat surface. 'Fire' button built into handle, and 'fire' pressure strip on body gives left- or right- handed operation. Membrane switches throughout. Fast, comfortable action. For use with 'ATARI' compatible games systems. Centre sprung. 1.25m lead to 9-pin in-line socket. Black plastic body with red 'fire' buttons.

Dims:- 114 x 80 x 90mm
Handle length:- 122mm

QUICKSHOT I

ATARI

T165A SVI101S

Deluxe digital joystick with hand contoured handle and two 'fire' buttons. Light, rugged action. Rubber suction feet.

Dims:- 107 x 88 x 160mm
Handle length:- 125mm

QUICKSHOT II

ATARI

T165C SVI102

A quality joystick with futuristic designed body and hand contoured handle. Light, rugged action. Thumb and forefinger 'fire' buttons and AUTO FIRE switch. Rubber suction feet.

Dims:- 130 x 95 x 175mm
Handle length:- 130mm

COMPUTER ACCESSORIES

ATARI
T165D SV1104

A new concept in joysticks. Three interchangeable handles allow you to tailor the joystick to suit the game. Light rugged action. Rubber suction feet.

Dims:- 107 x 88 x 160mm
Handle lengths:- 125mm

MSX
T165E SV1105

Large, rugged joystick with futuristic design. Thumb and forefinger 'fire' buttons and enlarged 'fire' pad. Five rubber suction feet.

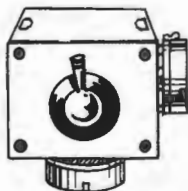

Dims:- 193 x 90 x 160mm
Handle length:- 113mm

ATARI
T165F SV1107

Handheld joystick controller. Compact size with lightweight fingerpad directional control. Thumb and forefinger 'fire' buttons. Left or right handed operation.

Dims:- 63 x 118 x 22mm

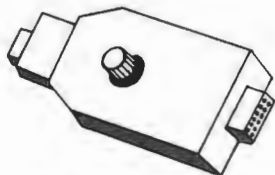

SKELETON POTS

Skeleton joystick potentiometers. Ideal for incorporation into computers, games etc. Tough metal construction. Two short sweep linear pots mounted at 90°. Plastic handle.

Dims:- (Body) 35 x 35 x 25mm

ref.	cat.	resistance
F118E	JS10	10K Ω
F118F	JS100	100K Ω

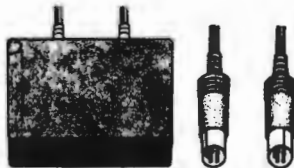

FIRE SPEED ADJUSTER

ATARI

T174 WF1601

Plug-in unit which lies between computer and joystick and uses internal circuitry to control the firing speed. Delay is variable from very slow to instantaneous. Adds another range of skill levels. 9-pin plug to 9-pin socket.

Dims:- (Body) 77 x 36 x 22mm

INTERFACE DRAGON

T171 AA1010

Interface unit to convert digital input (as obtained from Atari-compatible joysticks) to the correct analogue level for use with such home computers as Dragon, Tandy Colour, Radio Shack, etc. Two separate channels for competitive games. Two 5-pin 240° DIN plugs to compact case with two 9-pin plugs, with internal circuitry and connections for Atari-type joysticks. Black plastic.

Dims:- (Body) 116 x 62 x 29mm

INTERFACE SPECTRUM (KEMPSTON)

T173A M221

Plug-in 'Kempston' interface to make Atari type joysticks compatible to Spectrum computers with 'Kempston' programmes. Compact module has edge connector with polarity key and a short lead to a 9-pin plug.

Dims:- 74 x 63 x 16mm

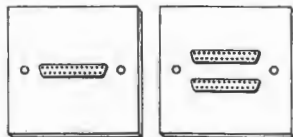

INTERFACE ORIC

T174A ORIC83

Interface unit to convert outputs from Atari-type joysticks to be compatible with the ORIC microcomputer. Provision for two joysticks. 20-pin DIP connector used. Black plastic.

Dims:- (Body) 60 x 30 x 18mm

RS232 WALL PLATES

Industrial standard wall mounting plates with 25-pin 'D' sockets for inter-connection between computer hardware using the RS232 interface system. Standard fixing centres for normal single gang boxes.

Dims:- (plate) 85.5 x 85.5mm

ref.	cat.	description
T175	WD3101	single
T176	WD3102	double

AUTO FIRE ADAPTOR

T174B AD333

In-line adaptor which converts any Atari-compatible joystick into an auto-firing joystick. Simple operation - just plug in between Atari computer and joystick.

Overall dims:- 69 x 25 x 16mm
