

RISC USER

*THE MAGAZINE AND SUPPORT GROUP
EXCLUSIVELY FOR USERS OF THE ARCHIMEDES*

RISC USER

WHAT IS RISC USER?

RISC User is a magazine and support group launched at the same time as Acorn's RISC computer, Archimedes. The magazine is wholly dedicated to the Archimedes range, and is published 10 times a year. It is only available on subscription, not through shops, and for only £14.50 (UK) is sent directly to your home for one year.

RISC User is also a support group for you and your Archimedes, and your initial subscription provides you with free membership for a whole year. This means that for no extra charge you will have the backing of a powerful organisation experienced in micro-computing to cover technical support, repairs, discounts on software and hardware and impartial advice, as well as a highly informative magazine.

THE MAGAZINE

RISC User is written by an experienced team of Archimedes enthusiasts who have over 5 years experience with the BBC Model B and Master computers with BEEBUG magazine. So popular is BEEBUG that membership exceeds 20,000 worldwide.

RISC User provides lively and informed coverage of what's happening in the world of Archimedes. Reviews, hints, programs and articles are specifically written for Archimedes, showing how to exploit the many features of this sophisticated computer. RISC User has material of direct relevance to the home, education, business and industry.

The magazine includes a well balanced selection of the latest news from Acorn and other major suppliers, reviews of the latest software and peripherals, as well as editorial features, programs, ideas, hints and tips, readers letters and much more.

RISC User is all about the Archimedes; it does not contain modified programs originally intended for the BBC Model B or Master.

The programs published in the magazine are also available each month on 3.5" disc.

OTHER BENEFITS

TECHNICAL SUPPORT

At no extra charge, subscribers to RISC User also have unlimited access to our technical support team, who may be contacted by phone or letter. This team of experts will endeavour to resolve any software or hardware problems that you may have, and will also provide unbiased advice on the suitability and compatibility of any equipment that you may be considering.

SHOWROOM

We have a showroom in St. Albans close to the M25, M1, A1, A5 and A6, where you may come and try out the latest software and peripherals for the Archimedes, with absolutely no obligation. An efficient mail-order service is also available, and RISC User subscribers may claim 5% discount on all purchases.

REPAIRS

RISC User is also an Acorn appointed Archimedes Support & Service Centre. We have staff trained by Acorn to undertake any repairs or servicing that your equipment may need.

TRADE-INS

A computer upgrade service is available, whereby we are able to accept unwanted BBC Micros or Masters in part exchange for a brand new Archimedes (or any other stock item). We are also able to offer certain items of equipment on a second-hand basis, complete with our 3 months warranty.

Although the focal point of RISC User is the Magazine, remember that you get far more than JUST a magazine when you subscribe. You become part of an organisation which has provided many years of support to microcomputer users. Let us have the opportunity to help you make the most of your Archimedes.
